

Adding multiple subsidy awards with the bulk upload template

Important information

Before you use the bulk upload tool, it's important to note that:

- you can only add a subsidy award for an existing subsidy scheme
- if there is not an existing subsidy scheme for the award you want to add, an approver will need to create one

1. Downloading the bulk upload template

You can download the template file from the Download template tab on the [Add multiple subsidy awards](#) page. The file will be in Microsoft Excel (.xlsx) format.

2. Adding subsidy awards to the template

Some of the fields are optional and require different formats – you can check the requirements for each field in the bulk upload field table.

Important information about subsidy control number and subsidy scheme title

You must enter **either** a subsidy control number **or** a subsidy scheme title. If you choose to enter both of these fields, they must match.

Important information about subsidy amount

If the subsidy instrument is a tax measure, you must enter a subsidy range.

If the subsidy instrument is not a tax measure, you must enter the exact subsidy amount.

4. Saving the file in the correct format

When you've finished adding information to the template, you can save the file. You can choose whether to save the file as a:

- .xlsx file

5. Uploading the file

Upload the file in the Upload file tab on the [Add multiple subsidy awards](#) page.

If the upload is successful, this will submit every subsidy award for approval.

If the upload is unsuccessful, you will see an explanation of any errors.

For more help and support with bulk uploads, contact your public authority's administrator.
